

What is a Liberty Grouping?

Liberty Groupings are customized furniture groupings for any room and purpose you can think of; created exclusively by Inwood Furniture Manufacturing. Liberty Groupings are designed by choosing from a variety of multi-dimensional components. These components are offered in different types of wood and a variety of styles.

Liberty Furniture Grouping example

Multi-dimensional Components

The basic building blocks of Liberty Furniture Groupings consist of hutches and bases that are available in many dimensions (i.e. a variety of widths, depths and heights). Other complimentary components are also available to complete a Furniture Grouping. e.g. desk tops, light bridges, corner desks and much more.

Types of Wood

Liberty Furniture Groupings are available in four varieties of wood: Oak, Pine, Maple and Paint Grade.

Variety of Styles

Liberty Furniture Groupings are available in a wide variety of styles. From Modern to Traditional and almost everything in between. Please refer to the following pages to see the different available styles.

LIBERTY® - Components

Types of Wood

Liberty Furniture groupings are available in four types of Wood : **OAK, PINE, MAPLE** and **PAINT GRADE**.

Due to the nature of Real Wood the grain, wood knots, color and general appearance of the wood will vary. These variations enhance the beauty of the final product and do not affect functionality in any way.

OAK

PINE

MAPLE

**PAINT
GRADE**

This material is suitable for
PAINTING ONLY -
DO NOT stain or varnish.

Basic Building Blocks Dimensions

(Hutches and Bases)

The basic building blocks of any Liberty Furniture Groupings are Hutches and Bases. These come in a wide variety of standard dimensions. You can also have dimensions (i.e. non-standard dimensions) that are in between the dimensions shown. When choosing a non-standard dimension, please use a whole number (no fractions). e.g. width 22", or height 46".

Base - No Uprights

STANDARD WIDTHS: 18", 24", 30", 32", 36", 42"

STANDARD HEIGHTS:

24", 30", 36", 42", 48",
54", 60", 66", 72", 78",
84", 90", 96"

STANDARD DEPTHS:

10", 12", 16", 20", 24"

Hutch - No Uprights

STANDARD WIDTHS: 18", 24", 30", 32", 36", 42"

STANDARD HEIGHTS:

24", 30", 36", 42", 48",
54", 60", 66", 72", 78",
84", 90", 96"

STANDARD DEPTHS:

10", 12", 16", 20", 24"

Permanent
Shelf
Permanent
Shelf Heights
(standard)
15", 20", 31"

A hutch is a base that has had its bottom shelf moved up by 15", 20" or 31". A hutch opening, i.e. 15", 20" or 31" is from the bottom of the hutch to the bottom of the permanent shelf's face frame. Heights for the permanent shelf can also be non-standard if desired.

Hutch or Base - Single Upright
